Bus shelters for Feltrim Road – Kennedy

Dublin North TD Michael Kennedy has welcomed the news that Dublin Bus is to provide a new bus shelter at bus stops on each side of the Feltrim Road at the Kinsealy Inn.

Deputy Kennedy: "These bus stops are well used by the local residents with children going to school and college and adults going to work every day."

"Local residents had asked Dublin Bus on a number of occasions over the years to erect shelters so their passengers could avoid getting continually getting wet."

"I was contacted by some of these constituents and made further representations to Dublin Bus. I am happy to report that Dublin Bus has surveyed the area and is now seeking planning permission for the construction of these shelters."

"I am relieved that Dublin Bus is moving ahead on this issue and hope to see the project complete before the beginning of winter so local residents can be spared the worst of this year's weather," concluded Deputy Kennedy.
